Dear Provider:

As of January 11, 2016, the Agency for Health Care Administration (AHCA) has implemented Express Enrollment for Medicaid recipients who enroll in an MMA plan. Under Express Enrollment, AHCA will give recipients the opportunity to make a health plan choice when they apply for Medicaid eligibility and enroll Medicaid-eligible individuals who are mandated to participate in the MMA program into a health plan immediately after eligibility determination.

Through Express Enrollment, health plan enrollment will be effective the same day the individual's Medicaid application is approved. It is important to verify Medicaid eligibility and plan enrollment at the time of service delivery, especially since individuals can be enrolled in a plan any time during the month.

For more information on Express Enrollment, visit [https://ahca.myflorida.com/medicaid/statewide\\_mc/express\\_enroll.shtml](https://ahca.myflorida.com/medicaid/statewide_mc/express_enroll.shtml).
