Prestige Health Choice Provider Bulletin

Summary: Prestige Health Choice Awarded Accreditation from the National Committee for Quality Assurance

On October 17, 2018, Prestige Health Choice learned that it was awarded accreditation by the National Committee for Quality Assurance (NCQA) following an audit conducted during a site visit on October 1, 2018 and October 2, 2018. Prior to this, Prestige Health Choice held interim NCQA accreditation since October 2017.

Per NCQA, NCQA Health Plan Accreditation provides a current, rigorous and comprehensive framework for essential quality improvement and measurement. It is the only program in the industry that bases results on clinical performance and consumer experience (HEDIS® and CAHPS®).

This accreditation also reflects Prestige Health Choice's commitment to network providers. As the plan gets ready to implement its new Statewide Medicaid Managed Care contract in regions 9 and 11 on December 1, 2018, Prestige Health Choice will continue to work with providers to facilitate even higher levels of performance and quality improvement as an NCQA-accredited health plan.
